

魚図鑑

1 山女魚

サケ目サケ科に属する魚。降海せずに、一生を河川で過ごす河川残留型（陸封型）の個体。神奈川県を境に東が山女魚、西がアマゴと分布。
釣り人たちは清流の女王呼び、その美しさで魅了している。最近では養殖も盛んになり、管理釣り場でも容易に釣ることができるようになった。
